Erith Road, Belvedere, Kent. DA17 6HB

Tel: 01322 433290

Head Teacher - Mrs O'Connor

Deputy Head - Mrs Shields

31st January 2017.

Dear Parents/Carers,

Lessness Heath Primary School will be collaborating with all schools in the Primary First Trust to hold an Innovation Week (week beginning 20<sup>th</sup> March 2017). This exciting week will provide a window of opportunity for children in our school to express their creative and inventive skills. Children will be given the chance to design and create solutions to everyday dilemmas that cause great hassle.

As part of Innovation week, we need parents who are willing to share their expertise with our children! If you work in a profession that requires solving problems (web designer, medical professional, veterinary surgeon, engineer, etc.) and innovating then we would love you to come in and share your knowledge. You could come in and give a talk or even hold a small workshop. If you are interested in sharing your knowledge to help the children and make our innovation week even more of a success, then please complete the form below and return it to your child's class teacher.

In addition, the children will be building prototypes of their creations as the week progresses. We are, therefore, looking for supplies of suitable materials. If you feel as though you or a company you are affiliated with could help in this area, please contact Miss Butler or Mr. Jackson directly.

Thank you for your continued support.

Miss Butler & Mr. Jackson
