24<sup>th</sup> February 2017.

Dear Parents/ Carers,

For the last two terms the children have been engrossed in our topic 'Space'. We have learnt all about the moon and Neil Armstrong's historic moon landing; created our own stories based on our core text 'Bob the man on the Moon' and have begun to explore the solar system. They have also produced some amazing homework with you that they have shared with their peers.

As we continue to be immersed in this topic, we are all looking forward to our visit from the 'Astrodome' on Monday, 6<sup>th</sup> March 2017. The visit will transport the children into outer space and take them on a virtual tour of our solar system!

The astrodome is a mobile planetarium where over 18,000 stars are projected together with models, music and moving picture views of the planets, providing a unique way of teaching this subject in a stimulating environment. The children will also learn about night and day, the seasons, earth and moon system, eclipse, the sun, the planets and their moons, stars galaxies, comets and much more!

Thank you to those of you who have already completed and returned the permission slips to us and contributed via the SIMS Agora system. ***Please can we remind you that these must be returned by the latest Monday, 27<sup>th</sup> February 2017. If we do not receive sufficient contributions, then we will unfortunately be forced to cancel the visit.***

If you do not have access to SIMS Agora, please contact the school office for further guidance.

Many thanks,

Miss Hunt, Mrs. Koonkoon and Mr. Liddiard
